

## **4-DAY ADVANCED INTENSIVE ACTING - SCENE-STUDY**

Tuesday 17th - Friday 20th September from 10.30am - 5.30pm

### **Taught by Giles Foreman**

**Giles takes participants through a thorough 4-day process for developing layered, three dimensional, realistic characters and scenes.**

Participants learn the extraordinary script-analysis process of Christopher Fettes, the founder of the Drama Centre London; they are introduced to the character analysis work of Yat Malmgren; inner and outer life; how to subtly play the subtext; how to become completely organic and connected to impulse; to use oneself and one's own experiences and emotional resources to bring truth and organic reality to a scene; triggers, and sense memory work.

We will team you up with a scene partner and suggest a scene for you to work on; and will enable you to connect you with your partner prior to the workshop, to work on the scene and character.

***For trained actors, this is a great opportunity to work with renowned acting coach Giles Foreman.***
